6. Major thoroughfare that runs north and south on campus. ________________ ESLILVEAUNE (two words)

Visit medbsd.uchicago.edu/alumni/reunion for the answers.

WHAT IS YOUR FAVORITE MEMORY FROM MEDICAL SCHOOL?

"I was terrified on the first day of my junior rotations. I was two-and-a-half years behind the other students, having spent that time in the lab pursuing my PhD. My medical knowledge and physical diagnosis skills were rusty to non-existent, and I had no idea what to do on service. I survived thanks to the other med students, who showed me the pocket medical books that were most helpful, gave me their secret phone numbers for lab results and radiology, and showed me the best places to find Xerox machines and free food. We all helped each other.

- Carol Westbrook, AB’72, PhD’77, MD’78"

"The White Coat Ceremony, anatomy, practicing the physical exam (Group XI), long nights in the library, long nights NOT in the library, transitioning to the wards and feeling completely lost, waking up at 4 a.m. with my feet searing in pain from surgery, re-discovering my love of pediatrics at Comer and La Rabida and ultimately the Match and graduation.

- Jonathan Hron, LAB’00, MD’08"
